CAREER OBJECTIVES

Full-Stack Developer and Automation Engineer experienced in building AI-powered workflows, ERP systems, and scalable web applications using Django, Laravel, and n8n. Skilled in integrating OpenAI, Gemini, and voice AI APIs, with hands-on production deployment on Ubuntu VPS environments. Focused on intelligent automation, backend architecture, and system optimization.

AREA OF EXPERTISE

- ✓ **Frontend:** HTML5, CSS3, JavaScript, Bootstrap
- ✓ **Backend & Programming:** PHP (Laravel), Python (Django), Node.js, C++
- ✓ **Databases:** MySQL, PostgreSQL, SQLite
- ✓ **Automation & AI:** n8n workflow automation, OpenAI & Gemini API integration, ElevenLabs voice AI, prompt engineering, Google Sheets API, business process automation
- ✓ **Version Control & Tools:** Git, GitHub, VS Code, PyCharm, XAMPP, Visual Studio, n8n
- ✓ **Core Strengths:** Advanced problem solving, system integration, automation architecture, scalable backend design

PROFESSIONAL EXPERIENCE

Junior Software Developer

Team Solution Bangladesh (TSBD), Dhaka, Bangladesh
Jul 2025 – Present

- Developed ERP modules using Django and Laravel with full CRUD functionality.
- Built REST APIs and optimized database performance.
- Deployed and managed applications on Ubuntu VPS with Apache configuration.

EDUCATIONAL QUALIFICATION

Bachelor of Science in Computer Science and Engineering
American International University-Bangladesh (AIUB)
2025
CGPA: 3.53
Major in Software Engineering

Higher Secondary School Certificate
Cambrian College
2020
GPA: 4.83
Group: Science

PROJECTS

Quantum Attendance System – Office Project <i>Python (Django), MySQL Jan 2026</i> Link: GitHub ✓ Built event scheduling and attendance management system. ✓ Implemented participant management, communication threads, comments, and feedback modules. ✓ Deployed Django and Laravel versions connected to same production database. ✓ Hosted on Ubuntu VPS via SSH configuration.	BreakCube – A Gamified TUI Gadget – Thesis Project <i>Javascript Aug 2025</i> Link: GitHub ✓ Built a gamified interactive cube with ESP32 and 3D model that connects to a PC via USB. ✓ Enabled the cube to trigger a software interface when turned, allowing users to play videos from the Pixabay API or offline games developed in-house.
AI-Powered Inventory Management System <i>n8n + OpenAI + Google Sheets API</i> ✓ Built conversational inventory system integrated with AI. ✓ Implemented stock management via natural language commands. ✓ Automated stock updates and confirmations. ✓ Used Google Sheets API for real-time data storage.	Voice-Controlled Inventory System <i>n8n + ElevenLabs + AI APIs</i> ✓ Developed voice-interactive inventory management system. ✓ Integrated ElevenLabs voice synthesis for conversational AI. ✓ Enabled AI-driven stock updates and business logic automation.

EXTRA-CURRICULAR ACTIVITIES

- ✓ **Enumerator, Economic Census 2024 – BBS**
Collected and recorded economic data with accuracy and professionalism.
- ✓ **Enumerator, Population & Housing Census 2022 – BBS**
Conducted surveys, ensured accurate reporting, and met daily targets as part of a team.

INTERESTS: Football, Travelling, Billiards, Bodybuilding
